# Lloyd's Register of Shipping.

71, Fenchurch Street, E.C.3.

6th April, 1950.

Dear Sir,

H. I am in receipt of your letter of yesterday respecting the Steamer "HUMBERGATE", and in reply to your enquiry I have to say that the last Special Survey of this vessel was carried out at Newcastle in June 1949 and the next Special Survey accordingly becomes due at the end of June 1953.

The Boiler Survey becomes due when the boiler is six years' old, i.e. at the end of February 1951 and the Annual Load Line Survey falls due on the 15th June next.

The vessel's class is subject to indented side shell plating, etc., on starboard side forward and set up bottom plating, etc. (port side amidships) being dealt with by the next Special Survey.

I should add that the next survey of the screwshaft is due at the end of February 1953.

Yours faithfully,

Clerk to the  
Classification Committee.

G.E. Harroway, Esq.,

MIDDLESBROUGH.
