Belfast Ship Yard,

Spencer-Basin,

Belfast, 15th September 18 98

Messrs Lloyds Surveyors,
BELFAST.

Dear Sirs,

S.S. No 148

The weight of the stockless bower anchors for
this vessel, amounts in the aggregate to 222 cwts 1 qr. 21 lbs
Kindly wire us to-morrow whether you can accept them
although a trifle under the old rule requirements?
We presume that you will not have any difficulty in passing
these seeing that the new rules require an aggregate of
only 193 $\frac{3}{4}$ cwt.

Yours truly,

PRO WORKMAN, CLARK & CO., LIMITED.
