

1096

Lloyds Register of British
and Foreign Shipping.

Greenock, 19 March 1842

Charles Graham Esqre

Sir:

Please receive herewith
Reports of Survey numbered 1157 & 1163
which I hope will be found correct.

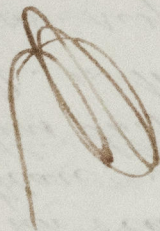

And I beg to Report, that I have
ascertained that the hulk named "Hop:
Report. p. 1096, has proceeded on her way
to Calcutta, forty fathoms of Chain Cable
short: the length required by the Rules
were ordered; and reported by me, on
the word of the master, to be put on
board. The Furnisher now informs me,
that when the Cable was being sent to
the Ship, Capt. Crawford would not allow
him to send more than 200 fathoms,
as I take every means in my power to
ascertain, that the Ships are furnished
as Reported. This is an occurrence that
can seldom take place; I have therefore
to submit, whether this Ship, should not
be put on figure 2. in the Register Book.

I am, respectfully

Yours most Obedient Servant
Wm. R. Cunningham

ass; Her Floors and furnishings are complete, and of
