Hull, 10<sup>th</sup> January 1884

To the Secretary,  
Lloyd's Committee of Shipping,  
London

Sir: With a view of ensuring the  
best class of workmanship we recently  
arranged for our new Steamer "Rosario" to be  
built under the inspection of your Surveyors.  
But we regret to say that after making a  
three weeks' voyage to Lige, we find on  
examination upon the ship that there has  
been a quantity of defective work. This is  
very unsatisfactory, as we certainly expected  
that as we pay for your Surveyors, the  
work would be completed in a proper  
manner.

Yours truly  
Thos Wilson & Co

Hull, 10 Jan.
