

J. WIGHAM RICHARDSON & CO.,
IRON SHIP BUILDERS,
NEWCASTLE ON TYNE.

1 April 1878.

Peter Young Esq
Dear Sir,

We cannot understand how it is that the Classification Certificate of the "Compton" has not come to hand. Please let us know what if any reason is assigned for this delay in a vessel built under special survey, and advise us please whether we should make application direct to London. The former letter about coal bunkers can surely hardly be the ground for this delay.

Yours truly
for Wigham Richardson & Co
J. Pattison
