

22.

6th September, 1857.

Dear Sirs,

I have to acknowledge  
the receipt of your letter of the  
5th instant, addressed to Mr. Martell,  
respecting the size of the floor  
plates of the two Ferry boats  
you are building for the  
Greenwich Ferry Co., and in  
reply thereto I have to acknowl-  
edge that, in view of the increased  
depth of floors in the engine  
space, provided double reversed  
angle irons be fitted in this  
space, the same will be  
approved.

Yours,

Dear Sirs,

Yours very truly,

Thos. W. P.

Wm. W. Latham,  
South Beach Iron Works,  
Blackwall.

Secretary.
