Guaymas 17.10.96

Dear Sir,

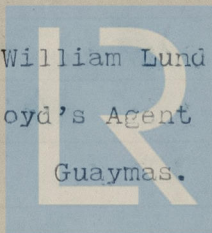

Your favour of the ^{2nd} ~~6th~~ September came in due time, and I have taken due note that you require a Special Survey to be held on the Steamers "ALTATA" & "MAZATLAN" belonging to the Western Railway Coy.

I have been waiting to hear from the Manager of the said Company at Altata before answering you and received his letter yesterday asking when the vessels could be seen here for such survey, to which I answered him today, to have his vessels here now put on the W.R. Slip at any time, and I could have a Surveyor ready to overhaul them and report on them.

I have received the special instructions you sent for guidance of the Surveyor and will forward you the reports as soon as the survey is held.

(Signed) William Lund
