The Secy

Lloyds Register of
London

Sir:

I have been surveying Cargo of
S.S. "County Derry" for damage: She has
had a very long voyage from River Plate to
this port: I notice a suspicious looking
place in Forward Hold at Upper turn of
bilge - which has been cemented, ceiling in
its wake is wet - or it is between the 7th &
8th Web frame counting from Forward Bulkhead
on Port side: As this vessel sailed
this morning for Belfast to Dry Dock
there, & complete her No. 1, Spl Survey
doubtless you will wish to acquaint
Belfast Surveyor & he can then examine
it:

Yours truly

Andrew Horne
