24th May 1895Weights of Cables

Sir

In reply to your letter of the 22nd inst on the above subject and Mr Green's letter of the 21st, which I return. I think the weight given by Mr Green is rather more than in the former cases, dealt with in your letter of the 20th inst and to which I replied to on the 22nd inst, I am therefore not prepared to recommend that they should be rejected, but in future I think the makers can if they wish make them to the weights required by the Committee for such sizes of Cables.

I am Sir

Yours &c
