Floor Timber Bolts.....	<u>7/8</u>	Lower Pintle of the Rudder.....	<u>2 1/4</u>		
Kelson ditto.....	<u>1 1/8</u>			same in Iron above the Copper.....	
Transoms and throats of Hooks.....	<u>1 1/4</u>				
Arms of Hooks.....	<u>1 1/2</u> x <u>7/8</u>				

Timbering.—The Space between the Floor Timbers and Lower Foothooks in this Vessel is 1 to 3 Inches. The Space between the Top-timbers is 3 to 5 Inches. The Stem, Stern Post, Transoms, Aprons, Knight Heads, Hawse Timbers, are composed of English, African & Foreign Oak and are apply free from all defects. Her Floors and first Foothooks are composed of Engl. & Foreign Oak Timber. Her other Foothooks and Top Timbers of Engl. & Foreign Oak. Her Shifts of the first and second Foothooks are not less than 3/6 to 4 feet N.B. When reported by you less than the prescribed Rule, then state how many. The rest of the Shifts of the Frame are Sufficient. The Frame is fairly squared from the first Foothook Heads upwards, and not free from sap, and from thence downwards, the frame is fairly square. The alternate Frames are — bolted together. every 6th. The Butts of the Timbers are — close together; their thickness not less than 1/5 to 1/3 of the entire moulding at that place. The Frame is cap chocked with no Butt at each end of the chock. The Main Kelson is composed of Amul. Oak and the False Kelson of Amul. Oak. The Scarphs of the Kelsons are not less than 9 feet — inches. The Deck and Hold Beams are composed of English, African, & Foreign Oak.

Planking Outside.—This Vessel's Plank from the Keel to the first Foothook Heads is composed of Amul. Oak. From the first Foothook Heads to the Light Water Mark of Foreign Oak. From the Light Water Mark to the Wales of Foreign Oak and ends of English Oak. The Wales and Black-strakes are of English & Afr. Oak. The Topsides of English Oak. The Sheer-strakes of English & Afr. Oak. The Gunwales of English Oak Water-ways of —. The Shifts of the Planking are not less than 5 Feet — Inches. N.B. If reported less than the prescribed Rule, state whether general or partial, and if partial, in what part of the Ship. The Planking is wrought 2 and 3 between. The Stringers of Foreign Oak.

Planking Inside.—The Clamps are composed of Foreign Oak and the remainder of the Ceiling of F. Oak except 'twixt decks of British Pine.

Fastenings.—To Hold Beams Iron staples round on timber and shells above & below. Deck Beams Double wood knees and shells below. Number of Breasthooks Five Pointers one pair, one Iron Crutches 12 Transom knees each side. Butts End Bolts are of Iron in the Bottom, and one Bolt in each Butt End through and clenched. Bilge and Footwaling is bolted through and clenched. General Quality of Workmanship From tolerable, Planking good.

We certify that the preceding is a correct description of the above-named Vessel.
 Builder's Name _____
 Surveyor's Name John M^r Denton

Memorandum of Survey of Yellow Pine
Memorandum of Red Pine

Her Masts, Yards, &c. are in good condition, and sufficient in size and length.

She has SAILS.		CABLES, &c.		ANCHORS.			
N ^o .		Fathoms.	Inches.	N ^o .	cut	cut	cut
2	Fore Sails,	180	1 1/2	3	Bower, 11/4	10 3/4	10 1/2
1	Fore Top Sails,			1	Stream, 4 1/4		
2	Fore Topmast Stay Sails,	60	3/4	1	Kedge, 1 1/2		
1	Main Sails,	75	8		All of proper weight.		
2	Main Top Sails,	2	5/6 & 4 1/2				
and <i>is well found</i>		All of <u>good</u> quality.					

Her Standing and Running Rigging is well fitted sufficient in size and good in quality.

She has one Long Boat and Skiff good & sufficient

The present state of the Windlass is good Capstan good and Rudder with 4 Tom Maces all good

John M. Denton

General Remarks—Statement and Date of Repairs.

Frame throughout is mixed with English & Foreign Oak (principally Foreign Oak) generally healthy, except a few timbers on Fore Deck, frame in places is irregularly wrought but is tolerably well shifted, a few timbers are Luanta Clipped which run way & supply on one side, Tops are generally battled on 2 Hds, a few Eng. Beams are wendy & supply on the moulding side and small ends, Vices and Hooks a fair length in the beams, the 3 Lower Hooks are wendy & supply.

Quality of outside plank appears all good well wrought and tolerably clean of sap & defect, Inside plank generally good except part of Ceiling & twist deck defective, inside length of Skiff to Deck Beams on each side decay. Ceiling wrought generally 2 between, scant from 4 to 6 feet, a small perforation of Treemah through the ceiling, Treemah all of Eng. Oak of good quality, Upper & Lower Beam fastenings, Hooks to all well bolted and clinched.

This Vessel commenced building in July 1836 and launched October 1836 was surveyed at the following dates: 8/9 : 14/9 : 19/9 : 7/10 : 22/10

If Sheathed, Doubled, or Felted, _____
 and Date when last done _____

And we are of opinion this Vessel should be Classed 7 A.S. or B.A.S.
