Imperial House,

Donegall Square East,

Belfast, 22nd July, 1946.

Reference

The Secretary,

LONDON.

Dear Sir,

MESSRS. HARLAND & WOLFF'S NO.1354.

With reference to the Builders' submission forwarded to you on the 20th instant, we have been advised that owing to an error the Midship frame spacing of 30 inches is shown carried to the 1/2L forward instead of to the 3/5L forward, as intended.

The Builders ask if you will amend the framing profile carrying the 30 inch spacing to the 3/5 length, and deal with the scantlings on that basis. The frame numbers can be adjusted later.

We are, Dear Sir,

Yours faithfully,

The Surveyors.
