Received from Chief Ship Surveyor

VESSEL'S NAME Steel S.S. "ELLAWOOD" Rpt. Mdb. No. 8926

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Nature of Survey

It is submitted before this case receives the consideration of the Committee the report and approved sketch of midship section should be returned to the Middlesbrough Surveyors who should be requested to complete the first entry in regard to the centre girder and side keelsons in way of the boiler space, and also to fill in the particulars of the riveting of the butts and edges of the sheerstrake and strake below clear of the end of the bridge.

The section should also be amended to agree with the report with regard to the thickness of the forecastle side plating.
