Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

1st June, 1938.

Dear Sirs,

I am in receipt of Mr. Wray's letter of the 31st
M. ultimo enclosing one (with translation) regarding Messrs. Soc.
Anon. John Cockerill's Yard No. 675, and the contents have been
noted.

In reply thereto I have to state that the note on
plan No. 92552 referred only to No. 3 hatch trunk, the scantlings
of the covers and webs of the remaining trunks being suitable
for cargo of normal density with hatch webs as shewn on this
plan.

Regarding the arrangement of covers and webs in way of
the trunks, however, I shall be glad if you will be so good as
to confer with the Builders in order to verify at which decks
covers and webs are to be fitted, as, for example, these items
are indicated at No. 3 hatch at "E" and "C" decks on the
approved deck plans, whereas on the general arrangement plan,
forwarded for guidance on the 27th ultimo, they are shewn to
be fitted only at "F" and "B" decks. Further, the arrangement
of hatch webs and covers at the remaining hatches is also shewn
on this general arrangement plan to be altered from that shewn
on the approved deck plans. On receipt of this information
the scantlings of the members required at the bottom of the

hatch trunks for cargo of normal density will be considered
and a further communication forwarded to you.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

ANTWERP.
