Enclosures

18th January, 1938.

Dear Sirs,

M. I return herewith two copies of the plan, forwarded with Mr. Wray's letter of the 11th instant, shewing an amended arrangement of the after peak bulkhead in Messrs. Cockerill's No. 675, and with regard thereto I have to state that provided the arrangements be carried out as shewn and amended and to your satisfaction, they will be approved.

The remaining copy of the plan is being retained for reference.

I have to point out, however, that although the arrangement of boss framing forward of the after peak bulkhead has been approved, no plan of the frames aft of this bulkhead appears to have been submitted and I shall be glad if you will be good enough to forward a plan of this framing shewing arrangement in way of the propeller brackets. At the same time a plan of stern tubes should be submitted.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

ANTWERP.
