25th October, 1917.

Dear Sirs,

I have the pleasure to enclose herewith a Certificate in triplicate vised by the Italian Consul, relative to the new twin screw steamer "SAN GENNARO", recently built by Messrs. Palmers' Co., for La Societa di Navigazione a Vapore Sicula Americana, and I trust that the document will answer the purpose of the Owners.

I should add that the First Entry Certificates of Classification for the vessel have been forwarded to the Society's Surveyors at Newcastle, with a view to being handed to the builders in the usual way.

I shall be glad to have your acknowledgment of the enclosures.

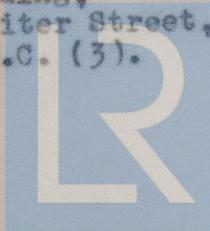

I am, Dear Sirs,

Yours faithfully,

Secretary.
