LONDON.

RECD & ACKD 1921  
ANSW

Bank Chambers,  
2, Freeman Street,

Grimsby, 29th July 1921.

Reference

My Dear Ives,

I see by the new Register Books that you have received further promotion in the Society's service and I offer you my congratulations and wish you continued good fortune. If the new office means a cessation of your endless Continental travelling it will be all the better for your health and comfort.

The enclosed letter has just reached me and from it you will gather that the Humber Graving Dock Co want us to indicate on certain plans they have prepared, what, in a general way, we would require if the existing coal bunkers were to be altered for carrying oil fuel and I shall be personally greatly obliged if you will have the matter looked into. The vessel is the ex-German passenger liner "TIRPITZ" now lying at Immingham and recently purchased by the C.P.R.

The Humber Graving Dock Co. are very good friends of ours and I want to help them in the matter if possible

With kind regards,

Yours faithfully,

*B. J. Ives*  
Lloyd's Register  
Foundation

B. J. Ives Esq.,

P.S. The plans are being sent to you under separate cover P.S.

Referred to the Chief Ship Surveyor.
