Deutz Engine. Order No. 2082 7003.

Dear Sir,

With reference to my letters of the 9th and 12th October last, I beg to inform you that I did not yet receive the approved plans of shafting and the torsional vibration calculations.

Approved plans are now urgently wanted by the Engine Makers, Messrs. Gorter, and I shall greatly appreciate it if you will deal with the plans to your earliest convenience.

Yours faithfully,

The Secretary,
LONDON.
