Dear Sir,

Main Propelling Engine LR.10 by  
Messrs. Klöckner Humboldt-Deutz  
Engine Type RV6M 536.  
Order No. 2082. 7003.

We duly received your letter of the 26th ultimo relating to the plans for the above engine and confirm that the diameter of the cylinders are 270 mm and the stroke 360 mm and that those given on the data sheet are incorrect.

It is regretted the errors on the data sheet were not noted here as we fully appreciate the inconvenience such mistakes cause.

It might be helpful for you to know that the last two numbers of the engine type number indicates the stroke of the engine, thus:-

RV6M	545	Engine stroke	450 mm
RV6M	536	" "	360 mm
A8M	517	" "	170 mm
MAH	220	" "	200 mm

and so on.

We are, Dear Sir,

Yours faithfully

per the Surveyors

The Secretary  
LONDON.
