

Twin Screw Barge "Limburg"

Hong Kong Rept. 4972.

London. 78562.

Sunderland. 27106.

The Hong Kong Surveyors have forwarded 1st Entry Reports on the new oil engines & new donkey boiler which have been fitted in the above vessel.

The Surveyors state that the engines N^o 10780/83 & 10792/95 which were built by Messrs J & C G Bolinder at Stockholm without this Society's supervision, have been examined by them before installation on board and tried under working conditions with satisfactory results.

Also the new donkey boiler built by Messrs MacColl & Pollock under this Society's Survey, has been satisfactorily installed in the vessel and its safety valves adjusted under steam.

It is submitted that
this vessel is eligible for
