Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

25th April, 1938.

Swan, Hunter & Wigham Richardson's Yard Nos. 1561/3
Dear Sirs,

M.

I have to draw your attention to the length of the unsupported span of the bottom longitudinals in way of the pump room. This compartment is 12 ft. in length and the scantlings of the longitudinals shown on the midship section are approved for an unsupported span of only 10'1". I shall be glad, therefore, if you will arrange for a sketch to be submitted showing the proposed reinforcement for these members in way of the pump room.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,
NEWCASTLE.
