We, J. M. LYNN, Chief Engineer s.s. "MANCHESTER  
PROGRESS" and JAMES EDWARD YOUNG, Chief Engineer of the s.s.  
"TEMPLE INN" certify that at the request of the West African  
Lighterage and Transport Company, Limited, Lloyds Agents at  
Takoradi and Sekondi, on the 25th October 1942, we surveyed  
the repairs carried out on rudder post stuffing box as  
required by the Survey Report dated Takoradi 21/10/1942, and  
found they had been carried out to our satisfaction.

From the survey that we have been able to make, as far  
as possible, we conscientiously believe the said vessel can  
proceed on her voyage.

DATED TAKORADI 25TH OCTOBER 1942

*J. M. Lynn 59018 B.O.T. First Class*

*J. E. Young 66933 B.O.T. First Class*
