Port

NEWCASTLE ON TYNE.

23rd March 1939.

This is to Certify that

R. MOFFITT,

the undersigned Surveyor to this Society did at the request of
The North Eastern Marine Engineering Co. (1938) Ltd., attend at
their Wallsend Works on the 17th March 1939 and subsequently,
for the purpose of examining and testing 129 Steam Superheater
Elements from the steamer "CORABELLA" of London.

The Elements were repaired by cropping
at the Gap Ends and fitting new Tubes and Caps.

18 Elements, representing more than
10% of the total, were tested by water pressure to 1,500 lbs.
per square inch and were found satisfactory.

R. Moffitt.

SURVEYOR TO LLOYD'S REGISTER.

Fee:- £1.1.0.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:
While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly
performed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances
to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any
publication of the Society, or for any error of judgment, default or negligence of any of its
Members, or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
