

COPY.

Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

ENCLOSURE.

19th March, 1937.

Dear Sir,

I return herewith one copy of the plan, forwarded with  
M. your letter of the 11th instant, shewing ice strengthening  
proposed for Messrs. Lubecker Maschinenbau Gesellschaft's Yard  
No. 367, and with regard thereto I have to state that provided  
the arrangements be carried out as shewn and amended on the plan  
and to the Surveyors' satisfaction, the same will be approved.

The size of the rivets through the frames may be 19 m/m  
as required for normal shell thickness, and the number of rows  
of rivets in the shell butts should also be governed by this  
thickness, which requires treble riveted butts where plating  
exceeds 10.5 m/m.

The duplicate copy of the plan is being retained for  
record.

I am, Dear Sir,

Yours faithfully,

Secretary.

A. Chisholm, Esq.,  
HAMBURG.
