AN 32

Reference

Dear Sir,

I am in receipt of your classing letter of the 30th ultimo in reference to the first entry report on the S.S. "NAGINA" Sunderland report No.28161.

The thickness of F strake of plating at the fore end is .46 as stated on the report and as approved.

You have probably been misled by the lettering of the strakes on the midship section by the Builders.

The strake marked F on the midship section coincides with the strake marked E on the report.

I am, Dear Sir,

Yours faithfully,

The Secretary,

LONDON.
