

now 9
Steel Screw Steamer "KEVERNE"; No.25457 in Register Book.

119 tons gross. Built 1908 - 4. Port: Hull.

Owners: Messrs. J. P. Knight, Ltd.

Classed: ~~MA~~- 7,30 ~~ELMC~~.6,28
For River purposes only BS.7,30
S.S.No.3-5,19 TS.6,28 (OG).
S.S.No.2-28

The Boiler Survey became due on this vessel 7,31
and the Screwshaft Survey 6,31.

In October last the Classing Committee agreed to
the Screwshaft Survey being deferred until next May, or June
at the latest, but required that the Boiler Survey should
be carried out at the next cleaning, which it was anticipated
would be in November.

In February last the Classing Committee agreed to
a further postponement of the Boiler Survey until March, or,
at latest, the present month, in view of an examination made
of the Boiler in June last by the Inspector to the National
Boiler & General Insurance Co. Ltd., a copy of whose report
was forwarded.

In reply the Owners now write as follows :-

"We have carefully considered whether we are
justified in keeping the above Tug classed and now
respectfully beg to inform you we have decided to
no longer avail ourselves of your Society's highly
appreciated and valuable assistance in connection
with the periodical surveys of the hull, boiler and
machinery of the "KEVERNE".

The Classing Committee had the case before them
on Friday, 22nd instant, when they decided to give instructions
for the vessel's character to be withdrawn from the Register
Book and three dots (...) inserted in lieu thereof, indicating
withdrawal of class at Owners' request.
