Classed:- 100A1 12,31 LMC.9,29  
S.S.No.2-29 TS.12,31 CL.

-----

The First Special Survey No.3 became due on this vessel in July, 1933.

She has been laid up at Buenos Aires since December, 1931, and the Owners have furnished the usual undertaking.

In September last the Classing Committee required a General Examination as the Special Survey was two years overdue. This has been carried out by the Buenos Aires Surveyors, with satisfactory results.

In reply to enquiry a letter has now been received from the Buenos Aires Surveyors in which they state that the vessel sailed on the 5th instant for Deseado without any part of the overdue Special Survey No.3 having been carried out. They add that the Owners were reminded, by letter on the 4th instant, of the agreement entered into with the Society regarding the vessel, but no acknowledgment has been received from them.

The Classing Committee had the case before them on Tuesday, 12th instant, when they decided to give instructions for the vessel's class to be expunged from the Register Book with a Red Line (5.36), indicating non-compliance with the Society's Rules, and the Surveyors have been advised by cablegram accordingly.
