The Special Survey No.3 became due in September, 1936, and the year of grace was refused by the Classing Committee.

A subsequent proposal by the Owners to part of the Special Survey during 1937 to postpone the remaining items until 1938 was not agreed to by the Committee, in view of the Owners that very little extra time would be required to complete the inspection at this time.

The Society's Surveyor at Bergen was informed accordingly, and from his reply, with which he encloses a letter he has received from the Owners, it appears that, although he has done his best to meet the Owners by offering to carry out as much of the Special Survey as possible during the vessel's stay at his port, they have decided to transfer her class to the Norske Veritas, who it is understood concurred in the Owners' wishes regarding the survey in the Spring of 1938.

In the circumstances the Classing Committee met before them on Tuesday, 13th inst. and issued instructions for the vessel's character to be entered in the Register Book and three dots (...), indicating withdrawal of class at Owner's request.
