Cargo Battens not Fitted

[Handwritten scribble]

The Society's Surveyors at Barry recently stated that this vessel was in drydock at that port, and that they were informed by the Master that she was classed with the Bureau Veritas.

In reply to inquiry, the Society's Paris Office now states that the Owners do not wish to maintain the classification of the Steamer in this Society's Register Book, as the Bureau Veritas class is sufficient for their purpose.

The case received the consideration of the Classing Committee on Friday, the 1st instant, when it was decided to give instructions for the vessel's class to be withdrawn from the Register Book, and three dots (...) inserted in lieu, indicating withdrawal of class at Owners' request.
