

LLOYD'S REGISTER OF SHIPPING,

17 BATTERY PLACE

NEW YORK June 7, 1918.

LLOYD'S REGISTER
LONDON
REC'D JUN 23 1918
ANSP

Dear Sir:

In reply to the inquiry contained in your letter of the 21st ultimo addressed to Mr. Hutchinson regarding the steamer "MUSCATINE", New York report No. 14883, I have to state that the construction of the deep tank of this vessel is the same as in the sister vessel - S. S. "JUPITER" - but at the request of the Shipbuilders the tank was not tested as it is only intended to be used as a coal bunker. Record of same should, therefore, not be shown in the Register Book.

I am, Dear Sir,

Yours faithfully,

A. Allen
per R.H.

The Secretary

LONDON.
