This German steamer is engaged on the West Coast of Africa and as she was not likely to proceed to a port where she could be surveyed by the Society's Surveyors, the Committee allowed the First Special Surveys Nos. 1 and 2 to be held by the Owners' Representative.

The Special Survey No.3 became due in February last and the Owners were informed that this inspection must be carried out by one of the Society's Surveyors. In reply they state that they have now decided not to renew the class of the vessel with this Society.

The case received the consideration of the Classing Committee on the 20th instant when it was decided to withdraw the vessel's class from the Register Book and insert three dots (...) in lieu thereof indicating withdrawal of class at Owners' request.
