A. & C.P. and *L.M.C. It is concluded the stem is $7\frac{1}{2}$ " by $1\frac{1}{8}$ " as on the approved sketch of midship section, and not $7\frac{1}{2}$ " by $7\frac{1}{2}$ " as on your report; that the centre keelson is $9/20$ " thick not $8/20$ " as on your report, and that the spacing of bulkhead angles on bulkheads is 30" not 36", but you should state if these are so, and also give the date of testing of chain cables.
