

It is submitted Mr. Rippon be informed that during the
past few days ^{an} arrangement has been made between the
Registro Italiano and this Society by which vessels may
retain the dual classification of Lloyd's Register and
Registro Italiano on terms which are specially favourable
to Owners who desire to retain this dual classification.

In this agreement due regard has been paid to the
point of economy from an Owner's point of view, and it is felt
that this information has only to be brought to the notice
of Mr. Rippon to ensure that the larger "renome" associated
with a vessel classed with Lloyd's Register will induce
Mr. Mazza to retain classification with this Society, as well
as with the Italian Register.
