These vessels have recently been acquired by the
Compagnie Generale Transatlantique.

The Society's Surveyors at Amsterdam now forward
a copy of a letter from the Owners, in which they state
that as these vessels are also classed with the Bureau
Veritas they do not wish to retain the classification of
Lloyd's Register.

In the circumstances the Classing Committee, who had
the cases before them on Tuesday last, the 1st instant,
decided to withdraw the classes from the Register.
