Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

6th June, 1939.

Enclosures.

Dear Sir,

E.

I am in receipt of your letter of the 3rd instant, with enclosures, respecting Messrs. Wm. Denny & Bros' Yard No.1347, and have to acquaint you that the plan of cylindrical multitubular boiler will be approved for a working pressure of 120 lb. per sq. inch, provided the boiler be constructed under the usual conditions of survey and testing.

The Steel Testing Surveyors should be advised regarding the tensile strength of the shell plates and butt straps, viz:- 29-33 tons per sq. inch.

Further, the plan of riveted air receiver will be approved for a working pressure of 600 lb. per sq. inch, provided the air receiver be constructed under the usual conditions of survey and testing.

The Steel Testing Surveyors should be advised regarding the tensile strength of the shell plates and butt straps, viz:- 29-33 tons per sq. inch.

Two sets of the plans are returned herewith.

The Secretary,
GLASGOW.

I am, Dear Sir,
Yours faithfully,
