Dear Sirs,

No. 1347.
M.V. "ARDENVOHR"

Messrs. Australind Steam Shipping Co. Ltd,
have asked what effect on deadweight and freeboard would be
obtained by the closing of the shelter deck on this vessel.

In view of the present state of emergency,
we believe that some vessels have recently received an increase
in draft by means of closing up the tonnage opening and making
watertight the openings in the shelter tween deck bulkheads.

Will you kindly inform us if anything can be
done in the case of this vessel so that we can advise the
Owners accordingly.

Yours faithfully,

FOR WILLIAM DENNY & BROTHERS LIMITED.
