PORT OF

LONDON.

GLASGOW

W161-0267

4th July, 1939.

Plan enclosed.

Dear Sirs,

Messrs. Wm. Denny & Bros' No. 1347 - Plan of
Cast Steel Quadrant & Tiller.

I return herewith one copy of the above plan submitted with your letter of the 26th ultimo, and with regard thereto I have to inform you that the scantlings and arrangements as shown and amended thereon will be approved, provided they be carried out to the satisfaction of the Society's Surveyors and the Castings be tested as required by the Rules.

The plan has been dealt with for a Rule diameter of rudder head of 10.7/8" and in view of the actual diameter being 11.1/4" it will be necessary to increase the diameter of the tiller boss as amended on the plan.

I shall be glad if you will kindly state where the Castings are to be made in order that a copy of the plan may be forwarded to the Local Surveyors for their information and guidance.

The remaining copies of the plan have been retained in this office for record.

I am, Dear Sirs,
Yours faithfully,

Messrs. John Hastie & Co. Ltd.,
GREENOCK.

Local Secretary.
