Dear Sir,

Steamer "WANDIA", No. 81468 in R.B.

We beg to acquaint you that the above vessel will be sold to Messrs. Junta de Descuares, Serrano 63, Madrid.

The vessel is at present laid up at Helsingborg, and the Owners request that she be allowed to proceed to Belgium or Holland and load a cargo of coal for Santander, Spain, where she will be taken over by the new Owners. The voyage is expected to take 8 days.

If considered necessary, the Owners state they will arrange for a Condition Survey to be held at Helsingborg before the vessel leaves that port, but it is not intended to further advance the Special Survey on the Hull and Machinery in Sweden.

We shall be glad to learn whether the Owners' request can be approved and, in view of the urgency of the matter, an early reply will be much appreciated.

If a Condition Survey is considered necessary, will you kindly forward particulars regarding its extent direct to the Helsingborg Surveyors?

Yours faithfully,
THE SURVEYORS,
