19th April, 1939.

Dear Sirs,

M.

I duly received Mr. Hodgson's letter of the 14th instant in reference to the proposed use of Bakelite for the bush of the rudder hearing in Messrs. Aalborg Vaerft's Yard No. 64, building to the order of Mr. J. Lauritzen, and the remarks contained therein have been carefully noted.

In reply I am directed to state that the physical properties of the proposed material, as set forth in the booklet forwarded by Mr. Hodgson, have been examined, and no objection need be taken to the Owner's proposal, provided, as in the case of Messrs. Helsingors Jernskibs- og Maskinbuggeri's Yard No. 259 referred to by you, the Bakelite lining be specially examined when the vessel has been in service one year.

I am, dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,  
COPENHAGEN.
