Dear Sir,

We have to-day per commercial papers' post forwarded for the consideration of the Committee amended plan, in triplicate, of the Drainagearrangement for Messrs. Aalborg Værft's Yard No. 64.

The difference between this plan and the previous approved plan is mainly the fitting of 2 bilge-hat suction in the engine room, an additional number of tank-chest and bilge-chest connections and the No. 6 tank will be used for fuel oil or water ballast only.

The previous plan, drawing No. R-426 should be cancelled.

I am, Dear Sir,

Yours faithfully,

*A. T. Westbury*
