LONDON

The Secretary,
Lloyd's Register of Shipping,
London.

Dear Sir,

Caused by an inquiry from Messrs. A/S. Burmeister & Wain we should be pleased to be informed of the Society's practice as to the welding of bed plates and entablatures for heavy oil engines.

- 1) Are the profiles and plating to be of tested material, or may Differdinger beams of ordinary house building material (Bessemer steel) be used.

*Differdinger Eisen Hüttenwerke,
makers of Broad flanged Beams*

This is of particular importance at present, for while the plain plates and small angles might be taken from the stock of ship-steel it might be very difficult, if not impossible, to get the big profiles of S.M. steel.

- 2) Are plans to be submitted for approval.
3) Are there any requirements as regards the electrodes to be

*W.P. Handbattli
M. Foster
ordinary commercial
+ Bessemer steel could
not be accepted*

Lloyd's Register

2.

used.

- 4) Are there any requirements as regards testing and inspection of work.

I am, Dear Sir,

Yours faithfully,

W. H. H. H.
