LLOYD'S REGISTER.

LONDON.

27 MARCH 1922

The Secretary  
London 31.

Sir,

With respect to the anchors and cables of the steamer "Hertford" ex "Friesland" I have to inform you that examination has not brought to light any marks indicative of tests applied.

In the case of the cables I may state one end link of a 15 fathom length was found laminated and has been cut off and the patent shackle connected with the next link.

I enclose markings as traced on the anchors and cables.

I am, Sir,

Your obedient servant

J. A. And
