

Ex-German Steamer "SAUERLAND".

I called and saw Mr. Edney, Secretary to The Federal Steam Navigation Co. Ltd., and he stated that this vessel was now in drydock at Southampton and was being inspected prior to purchase. He added that she would proceed from Southampton to Falmouth to be laid up, but that in due course she would be classed with this Society.

The four other ex-German Steamers, viz:-

"FRIESLAND"

"MUNSTERLAND"

"WENDLAND"

"VOGTLAND"

will also proceed in due course to Falmouth to be laid up, and it is intended that these Steamers shall ultimately be classed with Lloyd's Register.

Sa. 4.

26th April, 1921.
