The Secretary
London

Falmouth, 27th March 1922

Dear Sir

With reference to the classing of the SS "Hertford" ex "Friesland" I beg to inform you that the owners propose to dispense with the superheating arrangements for one voyage, and a sketch is forwarded herewith showing the connection suggested to cut out the superheaters, which involves saturated steam pipes passing horizontally through the uptakes above the vertical heating tubes for forced draught.

It is submitted that providing suitable draining arrangements be fitted to these pipes, and the superheater safety valves be retained, the proposed arrangement could be approved.

I am, Dear Sir

Yours faithfully

A. T. Graham
