## Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

1st May, 1922.

Dear Sirs,

With reference to my cablegram of the 2nd March  
st respecting the steamer "MIRLO", I have to acquaint you  
at the Society's Surveyor at Newport News stated on the 12th  
time that the vessel sailed for Beaumont, Texas on the 11th  
March and that no suitable opportunity presented itself for  
making an examination of the plate doors in the after cofferdam  
bulkheads between the summer tanks and the coal or oil fuel  
tanks.

The Society's Surveyors at Newcastle state that  
they cannot obtain any information from the Owner's Agents  
respecting the vessel's movements, and I shall therefore be  
glad if you will kindly ascertain from the Owner and let  
me know what arrangements he proposes making for the bolted  
doors in the after cofferdam bulkheads to be riveted up.

Yours faithfully,

Yours faithfully,

Surveyors,

CHRISTIANIA.
