

Copy of letter received from W.S. Miller & Coy.,

dated 13th February, 1924.

---

Dear Sirs,

S.S. No. 360.

With reference to the above vessel building by your goodselves, on our behalf, please note that we wish the after hold bulkhead kept forward, as shown on the Builders' plans (forming the after end of the deep tank) and we also desire the 'tween deck portion of this bulkhead to be omitted entirely, as we require this arrangement for the purposes of our trade.

Yours truly,

(Sgd.) Henry A. Ross,  
Marine Supt.

P.S. We also wish bolted plate doors fitted in the Boiler Room Bulkhead in the 'tween decks, same as on 352.
