Dear Sir,

S.

I have to acknowledge the receipt of your letter of the 19th ultimo enclosing a copy of one from the New York Office of the Owners of the steamer "THODE FAGELUND", from which it is noted that the examination of the cone end of the thrust shaft will be carried out, if possible, on the vessel's arrival in Europe, failing which it will be done on her return to your Port.

In the circumstances the Owners have been informed that the Committee have continued the vessel's class, subject to this arrangements being duly carried into effect.

I am, Dear Sir,

Yours faithfully,

Clerk to the
Classification Committee.

W. Bennett, Esq.,
NEW YORK.
