COPY

71, Fenchurch Street,

London, 17<sup>th</sup> Sept. 1919.

E.C. 3.

## CERTIFICATE OF BOILER.

No. 14894

This is to Certify that the *Jarrow type* Boiler  
made by Messrs Babcock & Wilcox L<sup>td</sup> of Renfrew  
for the A. M. S. Minesweeper No. 395  
and marked as below, has been surveyed during construction by the undersigned.  
The material has been tested by the Surveyors to Lloyd's Register; the scantlings  
are in accordance with the Society's Rules for a working pressure of 235 lbs.  
per square inch, and the workmanship is good. The Boiler having been  
tested in my presence on the 15<sup>th</sup> September 1919 by hydraulic pressure  
353 lbs. per square inch, showed no signs of weakness, and was  
found tight and sound in every respect at that pressure. Working pressure  
not to exceed two hundred & thirty-five lbs. per square inch.

## MARK ON BOILER.
