Reference

Dear Sir,

With reference to your letter of the 24th inst., respecting the Glasgow First Entry Report No. 39577 on the Steamer "PENTLAND FIRTH", I beg to acquaint you that the Surveyor states that, the stiffeners on the collision bulkhead are spaced as required; the width of the butt straps on the bridge side plating is as required for double riveting, and the frames are joggled as on midship section - not the shell plating edges.

I am, Dear Sir,

Yours faithfully,

P. L. Warlow

Secretary to the  
Glasgow Committee.The Secretary,
