7 enclosures.

PIRAEUS. 2nd March, 1940.

Dear Sir,

s.s. "SUZY".

We beg to enclose herewith a letter and plans in triplicate received from the Owner's Representatives of the above named vessel, now under survey and repair at this port for purpose of reclassification.

As will be seen from Messrs. Yannoulatos letter it is intended to extend the bridge deck to connect with the poop and forecastle decks.

It is proposed to dispense with the wood sheathing on the poop deck, and also to dispose of the forward poop bulkhead to enable the poop space to be used as part of the cargo tween deck. The openings in the forecastle bulkhead to be permanently closed and a suitable companion way constructed on forecastle deck.

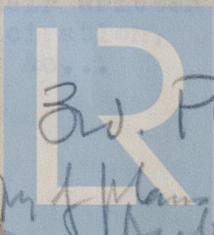

In view of the request contained in the last paragraph of Messrs. Yannoulatos letter perhaps you would cause a reply to be made by cable, if possible.

Yours &c...

The Secretary,

LONDON.

W. Shindler
