Lloyd's Register of Shipping,

High Close,

Wokingham, Berks.

3rd April, 1940.

S. Dear Sirs,

With reference to your Report No. 15909A on the Machinery for the new steamer "STAD ALKMAAR", I shall be glad if you will kindly confirm that the diameter of the rivet holes in the longitudinal seams of the boilers is 32 m.m. as the approved plan shows it to be 35 m.m.

I have to add that according to the plans the thickness of the crank web parallel to the axis is 240 m.m., and I shall be glad to receive your remarks on this point.

I am, Dear Sirs,

Yours faithfully,

pro Secretary.

The Surveyors,
AMSTERDAM .
